PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with over 8 years of experience in transforming raw data into actionable insights. Proficient in SQL, Python, and Power BI, with a strong background in building automated reporting solutions and collaborating with cross-functional teams. Adept at ensuring data accuracy and integrity, and skilled in providing insights to drive data-driven decision-making.

SKILLS

Python (Pandas, scripting, automation), SQL (joins, aggregations, performance tuning), Power BI, Salesforce, Jira, Excel (Advanced), VBA, ETL Pipelines, Data Modeling, Data Warehousing, Dashboard Development, Data Visualization, Query Optimization, Data Analysis, Business Intelligence (BI), KPI Tracking, Reporting Automation, Data Cleaning, Data Transformation, Predictive Analytics, Forecasting, Data Integration, Stakeholder Communication, Requirements Gathering, Business Process Analysis, Data Storytelling, Sales Analytics, Customer Insights, Pipeline Analysis

EXPERIENCE

NorthPeak Analytics - Data Analyst (2015–2019)

- Built and maintained SQL queries to extract and analyze large datasets for business reporting.
- Developed Python scripts to automate data cleaning and reporting workflows, reducing manual effort.
- Created interactive dashboards in Power BI to track KPIs across sales and operations teams.
- Collaborated with sales teams using Salesforce data to analyze pipeline performance and customer trends.
- Used Excel (advanced formulas, pivot tables, VBA) for ad hoc analysis and reporting.
- Managed tasks and project progress in Jira, ensuring timely delivery of analytics projects.

BlueRiver Solutions - Business Intelligence Analyst (2019–2023)

- Designed and deployed enterprise-level Power BI dashboards integrating SQL and Salesforce data sources.
- Wrote complex SQL queries and optimized database performance for reporting systems.
- Built Python-based ETL pipelines to streamline data ingestion and transformation processes.
- Partnered with stakeholders to translate business needs into technical reporting solutions.
- Automated recurring reports in Excel and Power BI, improving efficiency across departments.
- Led Agile workflows using Jira, including sprint planning, ticket tracking, and documentation.

Vertex Dynamics - Senior Data Analyst / BI Developer (2023–2026)

- Led development of scalable BI solutions using Power BI, SQL, and Python for executive reporting.

- Integrated Salesforce data with internal systems to provide end-to-end visibility into sales performance.
- Built predictive models in Python to forecast revenue trends and customer behavior.
- Mentored junior analysts on SQL best practices, dashboard design, and data storytelling.
- Streamlined reporting processes by replacing manual Excel workflows with automated dashboards.
- Coordinated cross-functional projects using Jira, ensuring alignment between engineering, sales, and leadership teams.

EDUCATION

Bachelor of Science in Data Science

North Star Institute of Technology (2011–2015)
